This is the third office action for application number 10/646,954, Apparatus and Method for Universal Mounting a Computer System in a Vehicle, filed on August 22, 2003.

### ***Response to Amendment***

The indicated allowability of claims 1 and 2 is withdrawn in view of further consideration of the reference(s) to Reh et al. Rejections based on the newly cited reference(s) follow.

### ***Claim Objections***

Claim 5 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. The subject matter in claim 5 further limits the computer equipment as if it was positively cited as an element of the claimed invention, however, in the remarks dated April 4, 2005, it is noted that the applicant only intends to claim the subcombination of an apparatus.

### ***Claim Rejections - 35 USC § 102***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent 5,076,524 to Reh et al., hereinafter, Reh. Reh discloses an apparatus (10) comprising: a first member (44) extending upwardly in a vertical direction (Fig. 2); a second member (48) fixed to

a top portion of the first member; a holding frame means (40) fixed to a top portion of the second member for holding computer equipment (38); wherein the second member is fixed to one side of the top portion of the first member so that the holding frame means faces a user on one side of the apparatus; wherein the second member is alternatively fixed to another side of the top portion of the first member so that the holding frame means faces another user on another side of the apparatus; and wherein the second member includes rotating means for rotating the holding frame means from a home position to a plurality of positions angularly displaced from the home position.

### ***Allowable Subject Matter***

Claims 3 and 4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 6-9, 11, and 13-20 are allowed.
